#### DISCLAIMER :

The chart below gives the actual coalition and party representation in Parliament:

#### Members of National Assembly

#### Senate

#### OTHER DISCLAIMERS :

- i) Mzalendo acknowledges Parliament participation is just one of several indicators that can be used to judge performance.
- ii) Tom Kajwang's (1541) entries are inflated as the record includes his duties as Temporary Speaker
- iii) Entries of members with similar surnames e.g. Omondi cannot be ascertained as the hansard record does not always include their initials or forenames.
- iv) Entries linked to Ekwee Ethuro ( 1784 appearances ) do not count as he is the Speaker of the Senate
